### A note from the principal – Mr. D Swart

The power of positive thinking. Your mind is your most powerful tool. Your thoughts are the starting point to what will most likely happen to you. Words are like seeds. When you speak something out you give life to what you are saying. Positive words will move your life in a positive direction. So too will negative words.

When you plant lemon seeds you will get lemons. You cannot plant cactus and expect to get oranges. Your thoughts together with your effort will give you

the outcome you deserve.

Positive thinking and hard work will result in you being successful. Remember that attitude determines altitude.
