14 February 2020

Dear Parents,

We have been on the journey through the 7 Habits for Happy Children. There is still a very important Habit which we should show every day, which is not part of the 7 Habits. That is the habit of love. Seeing as it is Valentine's day today, we want to encourage our learners and you as parents to show a little more love every day. A little goes a long way. Happy Valentine's day!

NEWS FROM THE GRADE 2 CLASS

Mathematics can be a very tricky subject to understand, especially problem solving sums. This week the Grade 2 class relied on one another to get through the Mathematics lesson. They were divided into groups and were given some problem solving questions. They had to work together to solve the problems. This is a good example that together, anything is possible. Keep up the great team work Grade 2's!

BRAINTEASER

BRAIN TEASER ANSWER #4

9 Sheep

BRAINTEASER #5

You planted sunflower seeds in your back garden. Every day, the number of flowers doubles. If it takes 52 days for the flowers to fill the garden, how many days would it take for them to fill half the garden?

DROPPING OFF LEARNERS

Parents please get into the habit of dropping your child off at the school gate. Only the Grade 000/00 and Grade R parents can drop off their children in the classrooms, but please don't linger. Your child needs to learn that routine is best. A quick farewell is better than a prolonged goodbye, as children tend to get tearful, especially after the weekend.

FOOD FOR THOUGHT

With so much heartache in the news about drownings, it is one of the few things you really owe your child. That is to teach them how to swim. A responsible parent will make a plan early in a child's life to get them swimming. Please, parents, do the right thing for your child. When will it be too late?
